Ground Linear Arithmetic Solver:

- newest tool in the SPASS Workbench
- combines our theory solver SPASS-IQ and our unnamed SAT solver
- supports QF_LIA, QF_LRA, (and QF_LIRA)
- complete but efficient theory solver [IJCAR2018]
- uses fast cube tests [IJCAR2016, FMSD2017]
- SAT decisions based on theory solver information
- uses many more well-known techniques for linear arithmetic
